TITLE	Course Registration Report, University of Hawaii, Community Colleges, Spring 1982.
INSTITUTION	Hawaii Univ., Honolulu. Office of Institutional Research and Analysis.
REPORT NO	MIF-31
PUB DATE	May 82
NOTE	33p.
EDRS PRICE	MF01/PC02 Plus Postage.
DESCRIPTORS	Class Size; *College Programs; *Community Colleges; *Courses; *Enrollment; *Enrollment Trends; Full Time Equivalency; General Education; School Statistics; State Surveys; Student Teacher Ratio; Two Year Colleges; *Two Year College Students; Vocational Education
IDENTIFIERS	*Hawaii

ABSTRACT

Spring 1982 course registration data are presented for regular credit programs at the six Hawaii community colleges (i.e., Honolulu, Kapiolani, Kauai, Leeward, Maui, and Windward). Table 1 provides a course registration summary by campus, which contrasts fall 1981 and spring 1982 data in the areas of numbers of courses, classes, and semester hours; student registrations and semester hours (SSH); course full-time equivalent (FTE); and student and instructor contact hours. Table 2 offers data on average class size by program and campus for 1981-82. Table 3 summarizes course registration by program, Table 4 illustrates number of classes and average class size by program, and Table 5 shows SSH and course FTE by program. The remaining 18 tables provide detailed information for each campus. As noted in the report highlights, (1) all course registration measures except the number of courses and semester hours offered dropped slightly from fall 1981 to spring 1982; (2) the number of courses offered increased at all campuses and resulted in a net increase of 7.5% over fall 1981; (3) average class size in spring 1982 was 23 students, compared to the fall average of 24; (4) the average size of general education classes was consistently larger than that of vocational education classes; and (5) general education offerings accounted for 53.3% of the total courses and 61.6% of the total classes. An appendix defines terms. (KL)

COURSE REGISTRATION REPORT
UNIVERSITY OF HAWAII, COMMUNITY COLLEGES
SPRING 1982

Introduction

Information for this report is based on registration data in regular credit programs at the six community colleges under the Chancellor for Community Colleges: Honolulu, Kapiolani, Kauai, Leeward, Maui, Windward. SIS Computer Reports 3010 and 3011, which provide detailed and summary data on course registration were used as the primary source documents. Computer Report 3030 (Schedule of Classes) was used as reference. The deans of instruction were also consulted for information regarding the schedule of classes, cross-listed and concurrently taught classes. All data are as of mid-March.

This is the first community college course registration report produced for a spring semester. In the past, such reports were produced only for the fall semesters.

HIGHLIGHTS

... All course registration measures, except the number of courses and semester hours offered, dropped slightly from last fall. This is consistent with the drop in enrollment usually experienced from fall to spring semesters.

However, the number of courses offered increased at all campuses, for a net increase of 119 courses, 7.5 percent over last fall. The total number of semester hours offered for all classes also increased by a modest 1.0 percent.

... Class sizes were generally smaller than classes last fall. The average class size this spring was 23 compared with 24 last fall, and decreased at all but one campus, whose average class size remained the same. The average size of general education classes was consistently larger than that of vocational education classes.

... General education course registration measures make up the majority of the total measures, though individual campuses vary greatly (see Tables 1 to 1f). General education measures make up:

53.3% of the total courses offered
61.6% of the total classes offered
59.0% of the total semester hours offered
64.6% of the total student registrations
63.9% of the total student semester hours generated.
